

Dr Babasaheb Ambedkar

Born in a period when patriarchy and casteism was normal
he chose to stand up and make way for moral

While humanity was missing from the society
he brought awareness, impartiality

Making history, he taught everyone the importance of education
he didn't stop there but also architected the constitution

He put an end to practices that were inhumane
made sure there were equal rights for all women

Indian superheroes are real and he was one of the many
self-less, strong, self-made he will live in our hearts for eternity

Inspiration : SUPERHEROES OF INDIA

I wrote this poem on May 1 2019 [Maharashtra Day] to celebrate one of my favorite superheroes of India. [Video Format](#)
